OEKO-TEX® Stoff

Thinsulate Air molecules cling to the body. The more air a material stores in a certain space, the higher the insulation level will be. Microfibres are much finer than other fibres. Therefore, they enclose more air within a smaller space thus offering a better insulation. The advantage: breathable, moisture-repellent and suited both for washing in the washing machine and for dry cleaning.

The fabric of this article has been tested for harmful substances and certified acc. to STANDARD 100 by OEKO-
